What is the TIME CENTER?

Over the course of the 2014-2015 school year, our school library will be undergoing a shift in both our physical space and the philosophy of what we are. To go along with this, the library will be renamed The TIME (technology, innovation, media, entertainment) Center. Look for this title shift to be reflected in club offerings, Period X options, and added technology!

What is QVMS Maker Time?

In the first quarter, QVMS Maker Time will be offered during Period X in the TIME Center. During Maker Time, students will learn to use and work with real-world tools and technology in order to experiment, collaborate, and create.

To begin this year's QVMS Maker Time, an instructor will introduce a new project or concept with which students will experiment. Some concepts and projects may take place over multiple weeks while others will be completed within one period.

THE BOUNDLESS by Kenneth Oppel

Will Everett has always wished for an adventure. Little does he know that his adventure starts the moment he boards the Boundless. There is a death, and now Will protects a key that can unlock the train's hidden treasures. Villains are fast on his heels, and strange creatures are lurking outside the windows as the Boundless hurtles across the country.

Follow the TIME Center Instagram Account!

We are excited to announce that the Quaker Valley Middle School TIME Center will have a social media presence this year as a way for you to stay in touch with what is happening. We are kicking off the year with an Instagram contest. Students can follow @qvreads and share a picture of themselves with their favorite books using the tag #bestbookever. Five winners will be randomly selected to win \$10 Penguin Book Shop gift cards. Details are available on the @qvreads Instagram account.

Evan Zufato is this week's
reading rockstar
for being the first to check out a book this year!

what are the teachers reading?

You have to read *This Song Will Save Your Life...*
Elise throws herself into any new endeavor and this one is no different. While she struggles to fit in at school (and who hasn't), Elise has found her way with a surprisingly different group of friends while she undertakes a new challenge – teaching herself to become a DJ. Filled with relatable anecdotes and heartfelt emotion, this is great read as we kick off the new school year.
